

Product Datasheet

Anti-Hu CD352 Purified GRP13269

Description	CD352, also known as SLAMF6 (SLAM family member 6) is a type I transmembrane glycoprotein expressed on NK cells, T cells, and B cells, and serves as a coreceptor for them. Besides association of its tyrosine phosphorylated intracellular domain with SH2D1A protein, it associates also with SH2 domain-containing phosphatases, which can modulate the signaling. Multiple CD352 isoforms have been identified.
Reactivity	Human
Tested Applications	FC, ICC, IP
Immunogen	CD352 transfectants
Form/Appearance	Purified
Concentration	1 mg/ml
Preservatives	Phosphate buffered saline (PBS) solution with 15 mM sodium azide
Storage	Store at 2-8°C. Do not freeze. Do not use after expiration date stamped on the label.
Note	For research use only.
Isotype	Mouse IgG1
Clone ID	hsF6.4.20
Uniprot ID	Q96DU3
NCBI	114836
