## **Product Datasheet**

## Anti-DLL4 PE GRP13259

**Description** DLL4 (Delta-like 4) is one of five ligands of Notch receptors. It

interacts with Notch1 and Notch4. DLL4 is up-regulated at sites of physiologic and pathologic angiogenesis, whereas its expression is low in most adult normal tissues. It is also highly expressed in human clear-cell renal carcinomas, bladder cancers, and breast cancers. Blocking the DLL4-Notch interaction seems to be a

promissing therapeutic approach.

Reactivity Human

Tested Applications FC

Immunogen recombinant soluble human DLL4
