

Product Datasheet

AVIDIN (Egg White) (RABBIT) Antibody Biotin Conjugated GRP2697

Description Anti-AVIDIN (Egg White) (RABBIT) Antibody Biotin Conjugated

Species/Host Rabbit

Conjugation Biotin

Tested Applications ELISA, IHC-P, WB

Form/Appearance 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2

Concentration 1.0 mg/mL

Note For research use only.

Isotype IgG

Clonality Polyclonal

Source Avidin (Hen Egg White)

Entrez [280717](#)

Dilution Range ELISA: 1:2,000 - 1:10,000, Immunochemistry: 1:250 - 1,000, Western Blot: 1:500 - 1:2,500

Application Notes Biotin conjugated anti-Avidin antibodies are used as an amplifying reagent in immunohistochemistry, microarray assays, ELISAs, blots, and other applications.

Avidin Antibody Biotin Conjugated
