### AVIDIN (Egg White) (RABBIT) Antibody Fluorescein Conjugated GRP2550

|                            |                                                                                                                       |
|----------------------------|-----------------------------------------------------------------------------------------------------------------------|
| <b>Description</b>         | Anti-AVIDIN (Egg White) (RABBIT) Antibody Fluorescein Conjugated                                                      |
| <b>Species/Host</b>        | Rabbit                                                                                                                |
| <b>Conjugation</b>         | FITC                                                                                                                  |
| <b>Tested Applications</b> | FC, IF, IHC-P, WB                                                                                                     |
| <b>Form/Appearance</b>     | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2                                                            |
| <b>Concentration</b>       | 1.0 mg/mL                                                                                                             |
| <b>Note</b>                | For research use only.                                                                                                |
| <b>Isotype</b>             | IgG                                                                                                                   |
| <b>Clonality</b>           | Polyclonal                                                                                                            |
| <b>Source</b>              | Avidin (Hen Egg White)                                                                                                |
| <b>Entrez</b>              | <b>615107</b>                                                                                                         |
| <b>Dilution Range</b>      | FLISA: >1:1,000,Flow Cytometry: User Optimized,Fluorochrome: 3.0,IF Microscopy: User Optimized,Western Blot: >1:1,000 |
