

Product Datasheet

BIN1 (MOUSE) Monoclonal Antibody GRP2117

Description	Anti-BIN1 (MOUSE) Monoclonal Antibody	
Species/Host	Mouse	Growth
Reactivity	Human, Mouse	Letwill
Conjugation	Unconjugated	Differentiation
Tested Applications	ELISA, IF, IP, WB	Immunofluorescence -
Form/Appearance	0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2	BIN1 Antibody
Concentration	1 mg/ml	
Note	For research use only.	
Isotype	lgG	
Clonality	Monoclonal	
Source	Anti-BIN1 (MOUSE) Monoclonal Antibody was produced in mouse by repeated immunizations with BIN1 polypeptide followed by hybridoma development.	
Clone ID	99F	
Uniprot ID	O00499	
Entrez	901176	
Dilution Range	ELISA: 1:5000-1:50000,IF Microscopy: 1:100-1:500,Immunoprecipitation: 10-100 μL,Western Blot: 1:500-1:1500	
Application Notes	Anti-BIN1 antibody has been tested for use in ELISA, Western Blot, IP, Specific conditions for reactivity should be optimized by the end user.	and IF.
