### BOVINE IgG F(ab')<sub>2</sub> (GOAT) Antibody GRP2784

|                            |                                                                                                                                                                           |
|----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Description</b>         | Anti-BOVINE IgG F(ab') <sub>2</sub> (GOAT) Antibody                                                                                                                       |
| <b>Species/Host</b>        | Goat                                                                                                                                                                      |
| <b>Conjugation</b>         | Unconjugated                                                                                                                                                              |
| <b>Tested Applications</b> | ELISA, IHC-P, WB                                                                                                                                                          |
| <b>Form/Appearance</b>     | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2                                                                                                                |
| <b>Note</b>                | For research use only.                                                                                                                                                    |
| <b>Isotype</b>             | IgG                                                                                                                                                                       |
| <b>Clonality</b>           | Polyclonal                                                                                                                                                                |
| <b>Source</b>              | Bovine IgG F(ab') <sub>2</sub> fragment                                                                                                                                   |
| <b>Entrez</b>              | <b>1280</b>                                                                                                                                                               |
| <b>Dilution Range</b>      | ELISA: 1:20,000 - 1:100,000, Immunochemistry: 1:1,000 - 1:5,000, Western Blot: 1:2,000 - 1:10,000                                                                         |
| <b>Application Notes</b>   | BOVINE IgG F(ab') <sub>2</sub> fragment antibody is suitable for ELISA, western blot, and immunohistochemistry, as well as other assays requiring lot-to-lot consistency. |
