

## Product Datasheet

### CRASP-1 (RABBIT) Antibody GRP2371

|                            |                                                                           |
|----------------------------|---------------------------------------------------------------------------|
| <b>Description</b>         | Anti-CRASP-1 (RABBIT) Antibody                                            |
| <b>Species/Host</b>        | Rabbit                                                                    |
| <b>Reactivity</b>          | Bacteria                                                                  |
| <b>Conjugation</b>         | Unconjugated                                                              |
| <b>Tested Applications</b> | ELISA, WB                                                                 |
| <b>Form/Appearance</b>     | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2                |
| <b>Concentration</b>       | 1.5 mg/mL                                                                 |
| <b>Note</b>                | For research use only.                                                    |
| <b>Isotype</b>             | IgG                                                                       |
| <b>Clonality</b>           | Polyclonal                                                                |
| <b>Source</b>              | MBP-fusion protein corresponding to Borrelia burgdorferi CRASP-1 protein. |
| <b>Uniprot ID</b>          | <b>Q66ZC1</b>                                                             |
| <b>Entrez</b>              | <b>121504</b>                                                             |
| <b>Dilution Range</b>      | ELISA: 1:2,000, Western Blot: 1:1,000                                     |

Anti-CRASP-1 Antibody -  
Western Blot
