### DOG IgG (H&L) (GOAT) Antibody Conjugated GRP4251

|                            |                                                                                               |
|----------------------------|-----------------------------------------------------------------------------------------------|
| <b>Description</b>         | Anti-DOG IgG (H&L) (GOAT) Antibody Conjugated                                                 |
| <b>Species/Host</b>        | Goat                                                                                          |
| <b>Conjugation</b>         | Texas Red                                                                                     |
| <b>Tested Applications</b> | FC, IF, IHC-P                                                                                 |
| <b>Form/Appearance</b>     | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2                                    |
| <b>Concentration</b>       | 2.0 mg/mL                                                                                     |
| <b>Note</b>                | For research use only.                                                                        |
| <b>Isotype</b>             | IgG                                                                                           |
| <b>Clonality</b>           | Polyclonal                                                                                    |
| <b>Source</b>              | Dog IgG whole molecule                                                                        |
| <b>Entrez</b>              | <b>50616</b>                                                                                  |
| <b>Dilution Range</b>      | FLISA: 1:10,000 - 1:50,000, Flow Cytometry: 1:500 - 1:2,500, IF Microscopy: 1:1,000 - 1:5,000 |
