

Product Datasheet

DONKEY IgG (H&L) (RABBIT) Antibody GRP5309

Description	Anti-DONKEY IgG (H&L) (RABBIT) Antibody
Species/Host	Rabbit
Reactivity	Donkey
Conjugation	Unconjugated
Tested Applications	ELISA, IHC-P, WB
Form/Appearance	0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2
Concentration	2.04 mg/mL
Note	For research use only.
Isotype	IgG
Clonality	Polyclonal
Source	Donkey IgG whole molecule
Entrez	7124
Dilution Range	ELISA: 1:20,000 - 1:100,000, Immunochemistry: 1:1,000 - 1:5,000, Western Blot: 1:2,000 - 1:10,000
Application Notes	Anti-Donkey IgG antibody is suitable for ELISA, western blot, and immunohistochemistry, as well as other assays requiring lot-to-lot consistency.
