

## Product Datasheet

### FRUCTOSE-6-PHOSPHATE KINASE (GOAT) Antibody GRP1981

|                            |                                                                                         |
|----------------------------|-----------------------------------------------------------------------------------------|
| <b>Description</b>         | Anti-FRUCTOSE-6-PHOSPHATE KINASE (GOAT) Antibody                                        |
| <b>Species/Host</b>        | Goat                                                                                    |
| <b>Reactivity</b>          | Rabbit                                                                                  |
| <b>Conjugation</b>         | Unconjugated                                                                            |
| <b>Tested Applications</b> | ELISA, IF, WB                                                                           |
| <b>Form/Appearance</b>     | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2                              |
| <b>Concentration</b>       | 1.0 mg/ml                                                                               |
| <b>Note</b>                | For research use only.                                                                  |
| <b>Isotype</b>             | IgG                                                                                     |
| <b>Clonality</b>           | Polyclonal                                                                              |
| <b>Source</b>              | Full length native Fructose-6-Phosphate Kinase purified from rabbit muscle              |
| <b>Uniprot ID</b>          | <b>P00511</b>                                                                           |
| <b>Entrez</b>              | <b>246779</b>                                                                           |
| <b>Dilution Range</b>      | ELISA: 1:1,000 - 1:5,000, IF Microscopy: 1:200 - 1:2,000, Western Blot: 1:500 - 1:2,000 |

anti-F6PK MAGP-2  
Antibody -
