Product Datasheet

GGA2 (RABBIT) Antibody
GRP3481

Description	Anti-GGA2 (RABBIT) Antibody
Species/Host	Rabbit
Reactivity	Human
Conjugation	Unconjugated
Tested Applications	ELISA, IP, WB
Form/Appearance	0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2
Concentration	1.4 mg/mL
Note	For research use only.
Isotype	IgG
Clonality	Polyclonal
Purity	This is an affinity purified antibody produced by immunoaffinity chromatography using the immunizing peptide after immobilization to a solid phase.
Uniprot ID	**D3DWF0**
Entrez	**7614553**
Dilution Range	ELISA: 1:5,000 - 1:20,000,Immunoprecipitation: 1:100,Western Blot: 1:500 - 1:5,000
Application Notes	This affinity purified antibody has been tested for use in ELISA against the immunizing peptide. Reactivity in other immunoassays is unknown.
