

Product Datasheet

GLUCOAMYLASE (GOAT) Antibody Biotin Conjugated GRP1960

Description	Anti-Glucoamylase antibody recognizes the enzyme glucoamylase. The catalytic domain of glucoamylase hydrolyzes terminal 1,4-alpha-D-glucose from non-reducing ends and releases beta-glucose.
Species/Host	Goat
Reactivity	Fungi
Conjugation	Biotin
Tested Applications	ELISA, IP, WB
Form/Appearance	0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2
Concentration	1.0 mg/mL
Note	For research use only.
Isotype	IgG
Clonality	Polyclonal
Source	Glucoamylase [Rhizopus]
Uniprot ID	P07683
Entrez	9518
Dilution Range	ELISA: 1:2,000 - 1:10,000, Immunoprecipitation: 1:100, Western Blot: 1:500 - 1:2,500

Glucoamylase Polyclonal Antibody-Western blot
