

## Product Datasheet

### GLUTAMINE SYNTHETASE (GOAT) Antibody GRP1853

|                     |                                                                                      |
|---------------------|--------------------------------------------------------------------------------------|
| Species/Host        | Goat                                                                                 |
| Reactivity          | Bacteria                                                                             |
| Conjugation         | Unconjugated                                                                         |
| Tested Applications | ELISA, IP, WB                                                                        |
| Form/Appearance     | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2                           |
| Note                | For research use only.                                                               |
| Isotype             | IgG                                                                                  |
| Clonality           | Polyclonal                                                                           |
| Source              | Glutamine Synthetase [native from brevibacterium species]                            |
| Uniprot ID          | <b>Q79VE3</b>                                                                        |
| Entrez              | <b>5970</b>                                                                          |
| Dilution Range      | ELISA: 1:5,000 - 1:20,000, Immunoprecipitation: 1:100, Western Blot: 1:500 - 1:5,000 |

Western Blot - Glutamine Synthetase Antibody
