### GOAT IgG F(c) (DONKEY) Antibody GRP2858

|                            |                                                                                                                                                      |
|----------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Description</b>         | Anti-GOAT IgG F(c) (DONKEY) Antibody                                                                                                                 |
| <b>Species/Host</b>        | Donkey                                                                                                                                               |
| <b>Conjugation</b>         | Unconjugated                                                                                                                                         |
| <b>Tested Applications</b> | ELISA, IHC-P, WB                                                                                                                                     |
| <b>Form/Appearance</b>     | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2                                                                                           |
| <b>Note</b>                | For research use only.                                                                                                                               |
| <b>Isotype</b>             | IgG                                                                                                                                                  |
| <b>Clonality</b>           | Polyclonal                                                                                                                                           |
| <b>Source</b>              | Goat IgG F(c) fragment                                                                                                                               |
| <b>Entrez</b>              | <b>542372</b>                                                                                                                                        |
| <b>Dilution Range</b>      | ELISA: 1:20,000 - 1:100,000, Immunochemistry: 1:1,000 - 1:5,000, Western Blot: 1:2,000 - 1:10,000                                                    |
| <b>Application Notes</b>   | Anti-Goat IgG F(c) antibody is suitable for ELISA, western blot, and immunohistochemistry, as well as other assays requiring lot-to-lot consistency. |
