

Product Datasheet

GOLDEN SYRIAN HAMSTER IgG (H&L) (GOAT) Antibody GRP4418

Description	Anti-GOLDEN SYRIAN HAMSTER IgG (H&L) (GOAT) Antibody
Species/Host	Goat
Conjugation	Unconjugated
Tested Applications	ELISA, IHC-P, WB
Form/Appearance	0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2
Concentration	2.1mg/ml
Note	For research use only.
Isotype	IgG
Clonality	Polyclonal
Source	Golden Syrian Hamster IgG whole molecule
Entrez	5430
Dilution Range	ELISA: 1:25,000 - 1:125,000, Immunochemistry: 1:1,000 - 1:5,000, Western Blot: 1:2,000 - 1:10,000
Application Notes	Anti-Golden Syrian Hamster IgG antibody is suitable for ELISA, western blot, and immunohistochemistry, as well as other assays requiring lot-to-lot consistency.
