# GOLDEN SYRIAN HAMSTER SERUM (RABBIT) Antibody Peroxidase Conjugated GRP2881

|                            |                                                                                         |
|----------------------------|-----------------------------------------------------------------------------------------|
| <b>Description</b>         | Anti-GOLDEN SYRIAN HAMSTER SERUM (RABBIT) Antibody<br>Peroxidase Conjugated             |
| <b>Species/Host</b>        | Rabbit                                                                                  |
| <b>Reactivity</b>          | Hamster                                                                                 |
| <b>Conjugation</b>         | HRP                                                                                     |
| <b>Tested Applications</b> | ELISA, IHC-P, WB                                                                        |
| <b>Form/Appearance</b>     | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2                              |
| <b>Concentration</b>       | 1 mg/mL                                                                                 |
| <b>Note</b>                | For research use only.                                                                  |
| <b>Isotype</b>             | IgG                                                                                     |
| <b>Clonality</b>           | Polyclonal                                                                              |
| <b>Source</b>              | Hamster Serum Proteins                                                                  |
| <b>Entrez</b>              | <b>5993</b>                                                                             |
| <b>Dilution Range</b>      | ELISA: User Optimized, Immunochemistry: User<br>Optimized, Western Blot: User Optimized |
