

Product Datasheet

HDAC11 (RABBIT) Antibody GRP3864

Description	Anti-HDAC11 (RABBIT) Antibody
Species/Host	Rabbit
Reactivity	Human
Conjugation	Unconjugated
Tested Applications	ELISA, IF, IHC-P, WB
Form/Appearance	0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2
Concentration	0.5 mg/mL
Note	For research use only.
Isotype	IgG
Clonality	Polyclonal
Source	HDA11 affinity purified antibody was prepared from whole rabbit serum produced by repeated immunizations with a synthetic peptide corresponding to a region near the N terminus of human HDAC11.
Uniprot ID	Q96DB2
Entrez	1061100
Dilution Range	ELISA: 1:20,000 - 1:60,000, Immunochemistry: 1:100-1:500, IF Microscopy: 1:100-1:500, Western Blot: 0.2 µg /ml
Application Notes	Anti-HDAC11 antibody is useful for ELISA and Western Blot. Specific conditions for reactivity should be optimized by the end user. Expect a band approximately ~39 kDa corresponding to the appropriate cell lysate or extract.
