

Product Datasheet

HORSE IgG (H&L) (GOAT) Antibody GRP1718

Species/Host	Goat
Conjugation	Unconjugated
Tested Applications	ELISA, IHC-P, WB
Form/Appearance	0.01 M Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2
Concentration	95 mg/mL
Note	For research use only.
Isotype	Antiserum
Clonality	Polyclonal
Purity	This product was prepared from monospecific antiserum by a delipidation and defibrination. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-goat serum, Horse IgG and Horse Serum.
Source	Horse IgG whole molecule
Dilution Range	ELISA: 1:20,000 - 1:100,000, Immunochemistry: 1:1,000 - 1:5,000, Western Blot: 1:2,000 - 1:10,000
