### HORSE IgG (H&L) (RABBIT) Antibody Biotin Conjugated GRP4474

|                            |                                                                                                   |
|----------------------------|---------------------------------------------------------------------------------------------------|
| <b>Description</b>         | Anti-HORSE IgG (H&L) (RABBIT) Antibody Biotin Conjugated                                          |
| <b>Species/Host</b>        | Rabbit                                                                                            |
| <b>Conjugation</b>         | Biotin                                                                                            |
| <b>Tested Applications</b> | ELISA, IHC-P, WB                                                                                  |
| <b>Form/Appearance</b>     | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2                                        |
| <b>Concentration</b>       | 2.0 mg/mL                                                                                         |
| <b>Note</b>                | For research use only.                                                                            |
| <b>Isotype</b>             | IgG                                                                                               |
| <b>Clonality</b>           | Polyclonal                                                                                        |
| <b>Source</b>              | Horse IgG whole molecule                                                                          |
| <b>Dilution Range</b>      | ELISA: 1:20,000 - 1:100,000, Immunochemistry: 1:1,000 - 1:5,000, Western Blot: 1:2,000 - 1:10,000 |
