

Product Datasheet

HUMAN IgG F(ab')₂ (GOAT) Antibody GRP4513

Description	Anti-HUMAN IgG F(ab') ₂ (GOAT) Antibody
Species/Host	Goat
Conjugation	Unconjugated
Tested Applications	ELISA, IHC-P, WB
Form/Appearance	0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2
Concentration	2.1 mg/mL
Note	For research use only.
Isotype	IgG
Clonality	Polyclonal
Source	Human IgG F(ab') ₂ fragment was produced by repeated immunization with Human IgG F(ab') ₂ fragment in goat.
Dilution Range	ELISA: 1:14,000 - 1:30,000, Immunochemistry: 1:1,000 - 1:5,000, Western Blot: 1:2,000 - 1:10,000
Application Notes	Anti-Human IgG F(ab') ₂ fragment is suitable for use in immunoelectrophoresis, western-blot, competitive western-blot, ELISA and competitive ELISA assays. Specific conditions for reactivity and signal detection should be optimized by the end user.
