

Product Datasheet

MOUSE IgA (alpha chain) (RABBIT) Antibody Biotin Conjugated GRP4901

Description	Anti-MOUSE IgA (alpha chain) (RABBIT) Antibody Biotin Conjugated
Species/Host	Rabbit
Conjugation	Biotin
Tested Applications	ELISA, IHC-P, WB
Form/Appearance	0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2
Concentration	1.0 mg/mL
Note	For research use only.
Isotype	IgG
Clonality	Polyclonal
Source	Mouse IgA alpha heavy chain
Dilution Range	ELISA: 1:20,000 - 1:100,000, Immunochemistry: 1:1,000 - 1:5,000, Western Blot: 1:2,000 - 1:10,000
Application Notes	Anti-Mouse IgA antibody is suitable for use in ELISA, immunohistochemistry, and western blotting. Specific conditions for other applications should be optimized by the end user.
