### MOUSE IgG F(ab')<sub>2</sub> (RABBIT) Antibody GRP4827

|                            |                                                                                                                                                                      |
|----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Description</b>         | Anti-MOUSE IgG F(ab') <sub>2</sub> (RABBIT) Antibody                                                                                                                 |
| <b>Species/Host</b>        | Rabbit                                                                                                                                                               |
| <b>Conjugation</b>         | Unconjugated                                                                                                                                                         |
| <b>Tested Applications</b> | ELISA, IHC-P, WB                                                                                                                                                     |
| <b>Form/Appearance</b>     | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2                                                                                                           |
| <b>Concentration</b>       | 1.5 mg/mL                                                                                                                                                            |
| <b>Note</b>                | For research use only.                                                                                                                                               |
| <b>Isotype</b>             | IgG                                                                                                                                                                  |
| <b>Clonality</b>           | Polyclonal                                                                                                                                                           |
| <b>Source</b>              | Mouse IgG F(ab') <sub>2</sub> fragment                                                                                                                               |
| <b>Dilution Range</b>      | ELISA: 1:75,000, Immunochemistry: 1:1,000 - 1:5,000, Western Blot: 1:2,000 - 1:10,000                                                                                |
| <b>Application Notes</b>   | Anti-Mouse IgG F(ab') <sub>2</sub> antibody is suitable for ELISA, western blot, and immunohistochemistry, as well as other assays requiring lot-to-lot consistency. |
