

Product Datasheet

PI3K type III (RABBIT) Antibody GRP3926

Description	Anti-PI3K type III (RABBIT) Antibody
Species/Host	Rabbit
Reactivity	Human
Conjugation	Unconjugated
Tested Applications	ELISA, WB
Form/Appearance	0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2
Concentration	1.02 mg/mL
Note	For research use only.
Isotype	IgG
Clonality	Polyclonal
Source	Anti-PI3K, type III affinity purified antibody was prepared from whole rabbit serum produced by repeated immunizations with a synthetic peptide corresponding to the C-terminal region of human PI3K, type III protein.
Uniprot ID	Q9Y2I7
Dilution Range	ELISA: 1: 10,000, Western Blot: 1ug/ml
